Project Description:

This Alternative School was started from nothing but motivation and solidarity in March 2011 by the initiatives of a local environmental activist Pi Ju along with endless support of Kuan Mai Bong villagers and the work of the pilot international volunteers from Finland, Denmark, Germany and Thailand. The main aim shared with the local community of Kuan May Bong is to make the next generation (local kids) be able to stay self-sufficient in their environment and to respect it as a vital part of their life.

Work: Build and run this alternative school together with local and international volunteers. Volunteers also dedicate themselves for community work when there's need.

In the clearing around the school, volunteers will grow their own fruit, vegetables, raise chickens and fish (agricultural self-sufficiency). The volunteers decide together how the school days are spent. The opportunities are endless: teaching different subjects such as basic English, art, agriculture, games. The kids vary in age, the youngest ones are approximately 7, and the oldest about 20. This is never a problem.

An important part of the project is to start together and manage smoothly our daily life in community. It is also very important that we open our actions among interested local people (activities with kids, giving trees...) so that the benefits of the project can be well understood: give to the coming generations the opportunity to have a sustainable life around there.

Work: Take care of the agro-forest and vegetable garden (planting seeds, nursing young plants, cutting the grass around young trees, gardening, collecting fruits, repair the tools, etc). We may start huts construction to receive more residents. Most of the land around is now planted in oil palm trees and rubber plantations (but a border is in contact with Khao Sok, a huge national park). It looks like people around are more interested in money than environment preservation. We want to start activities on the area with local kids on week-ends or evening (de-

pending on volunteers' skills). It is the easiest way to get in contact with local people and to share our project aims. Community daily life includes getting our food, cleaning, cooking, times to get together, times needed for privacy, different opinions or life visions, etc, we'll all have to adapt ourselves. We can start any other projects according to our aims. Ask our infosheet for more details about history, situation

Requirements: This project is for volunteers who -respect and are willing to understand other cultures and backgrounds -are open-minded, flexible -love nature and like enjoying all its benefits(living in the forest!) -love children -love organizing fun activities for kids -are willing to live together and work together with the local community and the other volunteers -are willing to adapt and enjoy simple conditions of living, Thai style -do not mind having little privacy -like doing physical work

Food: Healthy food is the basic of an healthy mind; strong importance on our alimentation. Fruits in big quantity. avoid industrial food, fried food, meat. cook 2 meals a day (rice or potatoes with vegetables, curries, salads, soups) fruits any time.

Accommodation: main house with electricity, and an old house without; close to a small village; dry toilets; shower and wash clothes in the river (natural soap); many mosquitos;

Pocket money: None

Insurance: Participant is responsible for their own insurance. Volunteers should take an insurance from their country.

Fees: 190 EUR per month. Accommodation, food, transport during the project, materials and partly for our organization

Visa: We provide invitation letter to get NON-IMMIGRANT visa.

Others: Meeting point: Phun Pin(Surat Thani) (from Bangkok you can choose to travel by bus or train).

Velebit Association Kuterevo was founded in 1995 and since then it works for preservation of natural and cultural heritage. In 2002 the Bear Refuge was founded and today the village hosts more than 20 000 visitors and 200 volunteers. Besides the Bear Refuge, the Volunteers Station was founded as a place for cultural exchange and sustainable living education. We believe that without a broad understanding of human coexistence with wilderness, we won't be able to preserve bears. Thus the refuge creates space for education, exchange, learning and experiencing sustainable living.

toilets, houses) and maintenance of the old ones. In that period the Refuge hosts around 20 groups of volunteers (Belgian Scouts, SCI international workcamps, Peace Caravan, German red Cross, Bouworde Belgium etc.) as well as more than 50 individual volunteers that are coming from all over the world. Depending on the season, the volunteers will be involved in: gardening, building, constructing, coordinating work of groups, helping in organization of events, collecting food for the bears, making souvenirs etc. The volunteer will work 7 hours per day and approximately 6 days per week. Sometimes more and sometimes less, what will depend on the weather conditions and amount of volunteers and groups present in the refuge. The work can be physically very demanding and socially intensive due to a big voluntary community.

Project Description:

Tent of Nations is an educational and environmental family run farm, growing olives, vines, almonds, various vegetables & fruit trees.

The project aims at bringing people with different backgrounds together, to learn from each other and to try to understand each other. The situation in Palestine plays a central role.

Over 15 years the family fights in a peaceful way to prevent confiscation of a threatened piece of land. Foreign volunteers play an important role by showing international presence, by helping to cultivate the land and by providing information about the project back home.

***Notice:** This is a MIDI WG project. Only volunteers from the following organisations can apply for this project: SCI Belgium, VIA Netherlands, SCI Germany, SCI Switzerland, SCI Catalonia, SCI Italy, SCI Hellas, SCI France, KVT Finland, IVS Great Britain, VSI Ireland. Please contact the SCI branch or partner organisation in your country for further information.*

Work: The work takes place on 'Daher's Wineyard'; the land of Tent of Nations. The work will consist of farm work like planting trees, watering plants, cleaning pieces of land, harvesting (tomatoes, grapes, olives, almonds, etc), caring for the animals, helping in the kitchen, creating (wall) painting as well as improving the infrastructure on the land (renovations, building of structures, digging new wells, cleaning caves, etc). Often new facilities will be built underground, because there is no permit to build on the land (the land is located in Area C, which is under full Israeli control).

During the summer children from the surroundings will come to the land and activities will be organised for them.

Of course the exact work will depend on the season and on which larger projects are running. Volunteers are invited to bring ideas and initiatives. However, be aware that there will be restrictions that you might not be used to (occupation, permissions, financial situation, security)

Requirements: Be ready for heavy physical work in rough conditions (hot during summer days and cold during nights) and isolated location.

Volunteers are expected to be at the land as much as possible, because the international presence is key (also: traveling in Palestine is a luxury).

5 work days a week. Free days will be agreed with the project (not the same for all long term volunteers).

It can happen that Israel refuses entry. This is at your own risk (no refund from SCI or Tent of Nations).

Food: The meals will be simple but nutritious. Home grown vegetables, daily picked eggs, home picked and prepared olives and olive oil will be part of the diet. Usually the family will cook, but sometimes the volunteers will assist or create a meal.

Accommodation: Volunteers will stay in one of the two small houses or in a big tent (containing beds). Primitive living conditions!

Water: project is dependent on self-made cisterns. It is key to be very careful with the use of water. Drinking water is bought.

Pocket money: None

Insurance: to be organized by the volunteer

Fees: 150 EUR per month. To cover food and accommodation. Part of the sum is dedicated to support the project.

Visa: When you enter in Tel-Aviv (Ben Gurion Airport), you will automatically receive a visa for 3 months. If you want to extend it, you will have to leave the country after three months. When re-entering it is unclear what kind of visa you will receive.

Others: The project has installed solar panel, which produces few hours of electricity each evening. There is wifi. If you bring your laptop, you can use it.

Only volunteers from the following organisations can apply for this project: SCI Belgium, VIA Netherlands, SCI Germany, SCI Switzerland, SCI Catalonia, SCI Italy, SCI Hellas, SCI France, KVT Finland, IVS Great Britain, VSI Ireland

Project Description:

In a large rambling farmhouse, dating back to 1720, about 20 people work daily

at being a community. Seven of us have special needs. We believe that the most important thing in life is relationships. Everything else is how we give substance, value, and meaning to those relationships. “Everyone is perfect in their essential being and everyone is handicapped in bringing that perfect essence to expression.”

Work: Helping with the needs of others and work around the house. Helping with the needs of others can be giving someone a ride to a therapy or to work, helping someone take a bath, learn to write or make a phone call, doing their laundry or attending a play or concert. Our social awareness extends beyond the house, to neighbors, friends, and community needs, so we are active in recycling, hospice work, community clean ups, etc. Working around the house can be repairs, cleaning, garden work, cooking, building, making a compost bin or organisational or administrative work. We are very flexible. Our aim is to create a network of strengths to support our various weaknesses so that as a group we can achieve a productivity we can all enjoy.
