

## TESTIMONIALS

---

"I was a volunteer for CVS-Bulgaria for one year and was involved in different initiatives such as The Refugee Project and the No More War Festival. I had the chance and the pleasure to work with other local and international NGO's, as well as governmental actors. During that year I was also a full time activist and I learned how to adapt quickly to new situations, always keeping a decisive and constructive attitude. Being part of CVS-Bulgaria brought to me useful skills, incredible experiences, and I feel I became part of a new family. The most significant thing about my experience was the people I met. I will always belong to CVS-Bulgaria." - *Mireia, EVS volunteer from Catalonia*

"Working with CVS-Bulgaria is one of the most beautiful things that could happen in my life. There I met beautiful, inspiring people who became soon friends more than colleagues, participating in the Refugee Project and, in particular, working with refugee children and women, has been an incredible experience, professionally and personally. I left in Sofia a lot of beautiful memories, friends and a piece of my heart. Go! Volunteer with CVS-Bulgaria! You won't regret it!" – *Veronica, EVS volunteer from Italy*

"All the good friends I've made, all the good times I've had and everything I've learned. All this and much more made the year I had in Bulgaria, one of the best and most special in my life. I'm truly and forever grateful to CVS-Bulgaria for having me and receiving me so well throughout all that time." - *David, EVS volunteer from Portugal*

"An incredible opportunity to gain new skills, be part of the international and crazy EVS community and discover the uniqueness of the Balkans. Volunteering with CVS-BULGARIA was a really enriching experience!" - *Emanuele, EVS volunteer from Italy*
